Yeungjin Statistics

Established
May 22, 1977

Degrees Awarded

Associate Degrees (2-3 years)

Bachelor Degrees (2 years)

Campuses

Main Campus (Bokhyeon)
Global Campus (Chilgok)

Location

- 1) Bokhyeon Campus: Buk-gu, Daegu Metropolitan City.
- 2) Global Campus: Chilgok-gun, Gyeongsangbuk-do.

School Accessibility

- Main campus is a 5 minute taxi ride from the airport or Dongdaegu Station and a 15 minute taxi ride to downtown Daegu (Dongseong-ro).

Schools

- **Engineering**
- **Humanities & Social Sciences**
- **Natural Sciences**
- **Arts & Sports**

Student Enrollment

6,973
(as of April 2023)

Number of International Students

441
(as of August 2022)

Number of Faculty Members

281
(as of April 2023)

The Benefits of Yeungjin for International Students!

The Nation's Best Programs for International Students

Global Zone Activities

- Korea's best customized programs for international students.
- Encourage the spread of international culture.
- Assist Koreans who hope to work abroad.

Buddy Program

- Participate in cultural exchanges with Korean students.
- Receive help from Korean students.
- Experience Korea with a Korean buddy!

On-Campus Work Experience

- Get work experience and earn tuition and living expenses in the Office of International Cooperation.

Academic and Life Counseling

- A dedicated team to support international students.
- Regular Academic and life counseling with Korean staff and professors.
- Resident Assistants are assigned to each dormitory building to support building repair requests, etc.

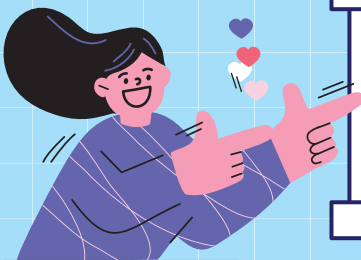

Consultation and Support for Immigration Services

- The staff in charge closely supports students with tasks necessary for life in Korea such as extending visas, applying for alien registration cards, and opening bank accounts.

Various Programs to Improve Korean Language Skills

Various programs are available such as Korean speaking competitions and Korean UCC competitions to improve Korean language skills during the semester and vacation.

Why Yeungjin?

Even though it is located in the center of Daegu, it has low tuition fees, living expenses, and sufficient scholarships.

Tuition fee : 2.5 million KRW to 3.3 million KRW/semester.

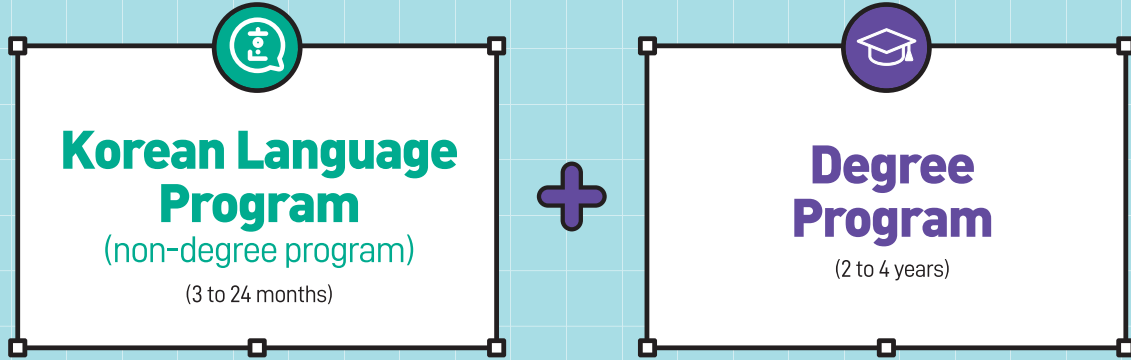

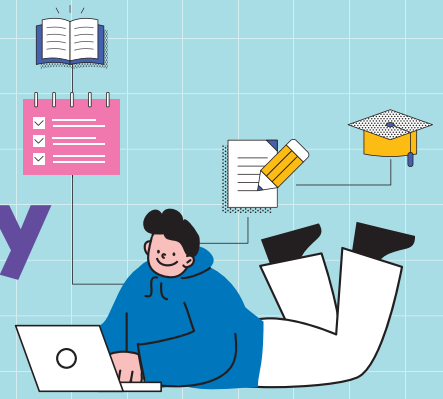

Dormitory : 300,000 KRW/month (including light heating, single room, all-in-one apartment).

Scholarship :

- From GPA 2.0 or higher, tuition fees will be reduced by 20% to 100% depending on the GPA.
- Tuition fee reduction for TOPIK performers when entering their semester.
- On-campus jobs are provided when participating in school work activities (approximately KRW 10,000/hour).

Yeungjin University Programs

Choose a **Korean language** class or **degree program** according to your goals for living or studying in Korea

Korean Language Center		1,000,000 KRW/semester					
Start of Class	Semester Duration	Class Hours	Program Duration	Class Times	Levels	Cost	Program Benefits
Four times/year (March, June, September, December)	10 weeks	200 Hours/semester	Up to 2 years (8 Semesters)	Monday-Friday, (9 am-1pm)	1 to 6	1,000,000 KRW/semester	Certificate of Completion

- ※ 30% reduction in tuition for the first semester when entering a degree program.
- ※ This program is recommended for those who want to learn Korean or are preparing to enter a degree program.

Degree Programs 2.5 million KRW to 3.3 million KRW/semester (about 4 months).

- 2 to 4 year programs varying by department.
- TOPIK level of 2 or higher required to enroll.
 - ※ Hotel, Airline Services & Tourism's Korean Language major applicants are exempt from this rule as they take comprehensive Korean classes.
- Graduates are granted a bachelor of science or associate degree.

FAQ

- Q** If I already have TOPIK level 3 or higher, do I have to take a Korean program in order to start my degree program?
 - A** If you have a TOPIK level 3 or higher, you can apply for the degree program immediately.
- Q** I don't have TOPIK, but I have Korean skills equivalent to TOPIK level 2. Is it possible to apply for a degree program?
 - A** It's possible. However, you have to have a Korean interview with a professor.
- Q** I can't speak Korean at all. Can I apply for a major in Hotel, Airline Services, and Tourism and Korean as a degree program?
 - A** It's possible. Hotel, Airline Services & Tourism's Korean Language major applicants are exempt from this rule as they take comprehensive Korean classes. However, we still recommend that you have TOPIK level 2 or higher for smooth class progression.

Introduction to Yeungjin University Programs

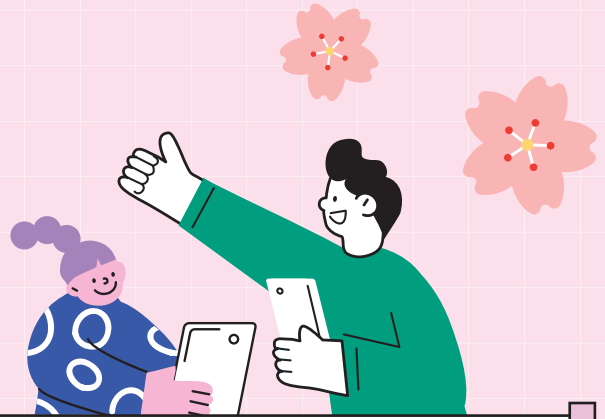

- Our university boasts the highest domestic employment rate as well as the highest international employment figures in Korea.
- We will help you find professional success in Korea or abroad after choosing your path.

Recommended Programs for International Students!

Global System Convergence

- AI Software and Hardware Developers.
- Robot Control System and Smart Factory Developers.
- Self-driving Intelligent Automobile Developers.

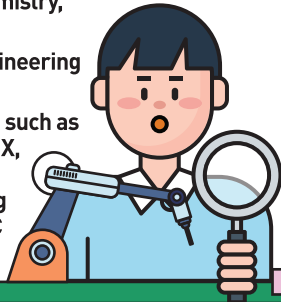

Computer Information

- Offering courses in Artificial Intelligence, Big Data Development, security engineering, and game operation.
- Granting certificates such as ORACLE OCP-DBA, AWS.

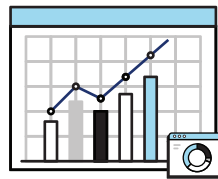

AI Convergence Mechanical Engineering

- Providing programs in 3D printing, Robotics, Ultra-precision Molds, Energy Chemistry, Future Automobiles, etc.
- Specializing in Technical Engineering training courses.
- Granting certificates in fields such as AutoCAD, 3D CAD(Creo, UG NX, CATIA, Inventor), 3D Printer Development, CNC Machining Practice, and Pneumatic/PLC control practice.

Business

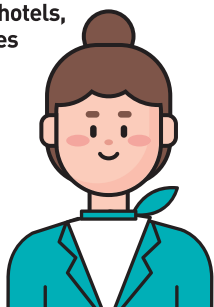

- Creating experts in human resources with the key skills required for various fields such as accounting, finance, and services.

Hotel, Airline Services & Tourism (Korean major)

- Training future employees for hotels, duty-free shops, airline services (stewards and ground staff), travel agencies, as well as Korean interpreters.

*Regarding the Korean translation expertise course, Korean language beginners can also apply.

Beauty Convergence

- Fostering professional talents related to Korean beauty occupations such as hair, skin, and nails, etc.
- Providing graduates with a Korean hairdresser's comprehensive license.

Lead the world of Global AI Convergence technology development.

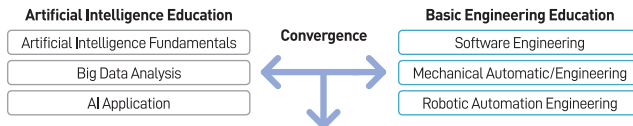

Be part of the global Fourth Industrial Revolution and lead the future! Lead innovation and creativity with Artificial Intelligence. A unique opportunity to create a future with leading global companies!

- AI Software and Hardware Developers.
- Robot Control System and Smart Factory Developers.
- Self-driving Intelligent Automobile Developers.

Department Introduction

Global System Convergence provides professional training in order to apply Artificial Intelligence (AI) as a convergence technology in various fields. Students acquire the ability to apply state-of-the-art AI technologies to the Fourth Industrial Revolution. These technologies include self-driving car software, intelligent robot control systems, and smart factories. This program develops creative problem-solving skills through PBL (Project Based Learning) based self-directed learning in an international educational environment. It nurtures global convergence technology and AI technology talent with global companies in advanced countries around the world.

Education System Overview

Global Advanced Convergence Curriculum	
Cutting-edge Skill Education	<ul style="list-style-type: none"> ● Artificial Intelligence Convergence Subjects <ul style="list-style-type: none"> · AI Software and Hardware Development. · Robot Control System and Smart Factory Development. · Self-driving Intelligent Automobile Development. ● Project-based Training
Global Education	<ul style="list-style-type: none"> ● Native English/Japanese teaching (choice of one) ● Operation of mixed class for foreign students ● An overseas training program

- Develop leading convergence technology talent through employment in developed countries.
- Develop AI technology with global companies.

Major Features and Vision of the Department

- The latest Artificial Intelligence (AI) technology theory and AI-based software/hardware developer curriculum.
- English and Japanese education programs with native speakers with the aim of attaining employment abroad.
- English and Japanese education will be elective depending on the student's chosen country of overseas employment.
- Conducting college life in English and Japanese by forming mixed classes with foreign students (English, Japanese, etc.) within the department.
- Various overseas training programs such as overseas internships, overseas training, and an overseas semester system (conducted at least once while attending Yeungjin University).
- Overseas employment consulting programs with foreign professors.
- Exchange programs with international students from various countries.
- Conducting recruitment briefings for outstanding overseas companies and overseas employment consultation.

Career and Main Employment Locations

- International companies in the U.S., Europe, Japan (Softbank, Nissan Motor Co., and Autoliv).
- Overseas subsidiaries of domestic companies such as Samsung Electronics, Hyundai-Kia Motors, etc.
- Domestic foreign companies such as AWS Korea.
- Famous Korean companies such as Naver, Kakao, etc.

Computer Information

3 years

AI Big Data Application Software

Department Introduction

- Fostering Artificial Intelligence (AI) and Big Data-based application software developers.
- Training web-based enterprise solution developers, and mobile (Android, iOS) app developers.
- Training essential software developers for key companies in the era of the Fourth Industrial Revolution such as Naver, Kakao, and Samsung Electronics.
- Development of high-paying software developers for the development of bank computer networks such as KB Kookmin Bank, Nonghyup, and Daegu Bank.

Acquired Certificates

- **International Accreditation Certificate**
ORACLE OCP-DBA, OCAJP/OCPJP, SCJP, MCP/MCSE, LPIC, etc.
- **National Accredited and Private Qualifications**
Information processing (industry) articles, big data analysis articles, DAP, DAsP, SQLP, SQLD, computer system application industry articles, network managers, M4 information protection experts, internet information search companies, internet information designers, e-commerce managers, internet system managers, etc.

Information Security & Game Contents

Department Introduction

- Training cloud-based computer server and security engineers in the 5G era.
- Training system and network engineers to build and operate information system infrastructure in the era of the Fourth Industrial Revolution.
- Creating games and game contents along with training IT convergence content experts with UI/UX-based web programming skills.
- Training game QA and game management practitioners who lead the game industry in the metaverse era.

Acquired Certificates

- CCNA/CCNP, LPIC, AWS, ISTQB (Game QA).
- Information security industry engineer, Internet security expert, SW test expert (game QA), information processing industry engineer, Linux master, network manager, computer graphics operation technician, game graphics expert, etc.

AI Cloud Programming

Department Introduction

- Training high-tech software developers in the field of Artificial Intelligence, IoT, app and web, with system engineers in the field of cloud, Linux, network, and server technology.
- Systematic training is conducted to obtain at least one certificate per person by operating a linked curriculum to obtain international and national accredited and private certificates (CCNA, information processing, network manager, AWS, Linux master, etc.).

Acquired Certificates

- **International Accreditation**
AWS, CCNA/CCNP/CCIE, LPIC, OCAJP/OCPJP, MCP/MCSE, RHCE, etc.
- **National Accreditation & Private Qualifications**
Information processing industry engineers, network managers, Linux masters, etc.

Japan IT

Department Introduction

- Fostering the ability to design and develop self-planned IT services using new technologies such as AI, Big Data, Cloud Computing, and Network Security. Nurturing the job skills, Japanese language skills, and international thinking required by Japanese IT companies.

Acquired Certificates

- **International Accreditation Certificate**
ORACLE OCAJP/OCPJP(SCJP), CISCO CCNA/CCNP/CCIE/ DEVNET, AWS Associate, Azure Administrator Associate, LPIC, etc.
- **National Accreditation and Private Qualifications**
Information processing industry engineer, Linux master, network manager, computer organization application industry engineer, M4 information protection expert, internet information search company, internet information designer, E-commerce manager, internet system manager, etc.

AI Convergence Mechanical Engineering

2 years

Smart Mechanical Design

Department Introduction

- Acquiring and utilizing 3D CAD, 3D scanning, and 3D printing technologies that will lead the Fourth Industrial Revolution. We train Global Smart Convergence Design Engineers who can work in overseas companies. They plan, design, and prototype products, parts, and manufacturing processes.
- Satisfying the demand for technology development personnel in the fields of 3D printing and customized design. Graduates required to use 3D scanning to process facilities in major domestic industries such as power generation, aviation, and machinery is increasing.
 - Development of Smart Design Engineers for the Fourth Industrial Revolution in Mechanical and Automated Equipment and Process Equipment Design.
 - Leveraging smart design with CAE design and Augmented Reality.
 - Expanding 3D printers, reverse engineering, and product inspection applications.
 - Cultivating creative engineers using convergence technologies such as 3D CAD and CAE/CAM.
 - New start-ups in 3D printer and 3D scanner applications and expanded employment in inspection and quality management.
 - Acquiring national technical certificates such as mechanical design industry engineer, mechanical maintenance industry engineer, precision measurement industry engineer, 3D printer development industry engineer, 3D printer application technician, etc.

Robot Automation

Department Introduction

- With the advent of the Fourth Industrial Revolution, the demand for intelligent robots and advanced automation systems is increasing due to the accelerated trend of smart factories at production sites. As a result, the demand for personnel who have acquired convergence advanced technologies in the mechanical, electrical, and electronic fields is continuously increasing.

This department trains automation engineers with advanced technical practical skills related to the development of intelligent robots and automation facilities, the design of automation devices, automatic control programming, and maintenance of automation facilities.

 - Development of technology engineers related to intelligent robots in preparation for the spread of digital new technologies in the era of the Fourth Industrial Revolution (Digital New Technology Innovation Sharing University, 'Intelligent Robot Department').
 - Development of one-person skills such as pneumatic/PLC/PC controls.
 - Acquisition of industrial engineers for the major skills.
 - Training to understand the entire process of automation through Capstone Design by Convention Group.
 - 3D CAD training for Automation Equipment and Robot Design.
 - CT product development/production process training.
 - Global talent training in Japan for automation facilities.
 - Smart Factory Talent Training Project (Korea Industrial Complex Corporation).

Smart CAD/CAM

Department Introduction

- The core of the Fourth Industrial Revolution is technology convergence. This involves designing and processing ultra-precise molds, CAD/CAM, NC machining, and 3D printing skills for machine tool design and production.
 - 3D CAD and 3D printing training for implementing and verifying ultra-precise mold and tool design technology.
 - Design theory and practice, mold analysis training for ultra-precise mold design, and optimal molding conditions.
 - CAD/CAM and NC processing technology training for ultra-precise mold processing and assembly.
 - National Treasury Financial Support Project (LINC3.0, Meister University).
 - Acquisition of national technical certificates such as injection mold industry engineer, computer application processing industry engineer, press mold industry engineer, precision measurement industry engineer, machine assembly industry engineer, etc.
 - Major employment destinations include Samsung Electronics, LG Electronics, Hyundai, Kia Motors, POSCO, Iljin, KAI, TORAY, Pungsan, Daegu Tech, Sewon Group, Iljin Group, etc.

Energy & Chemical Plant

Department Introduction

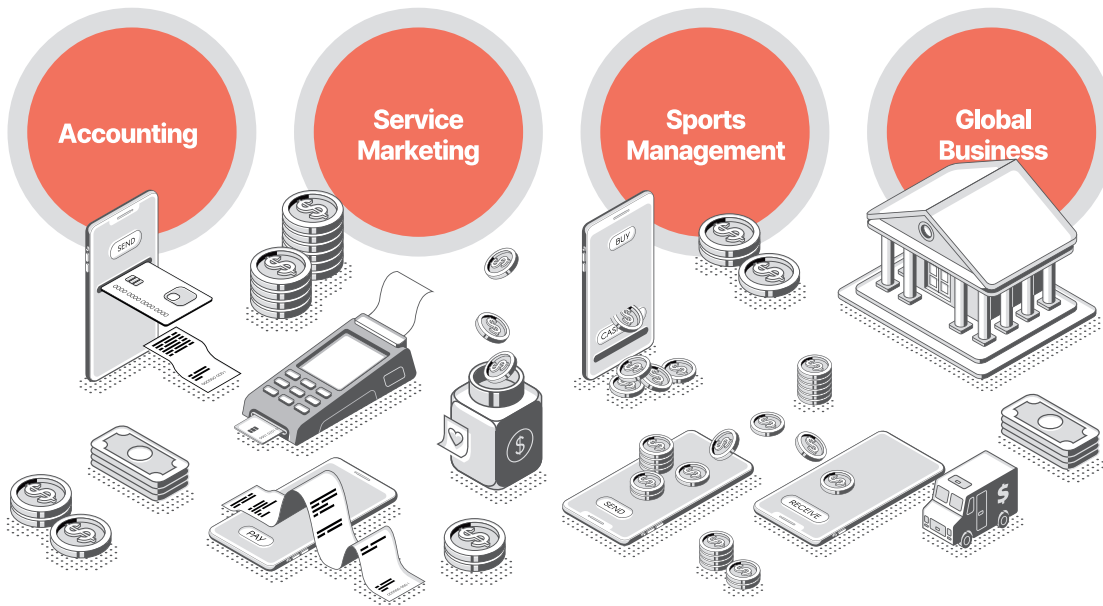

- The energy and chemical industry, including petroleum, is a device industry that uses large process plants to produce products and maintain facilities. Mechanical engineering combines energy and chemical process technologies to train engineers in energy, chemical, plant manufacturing, facility maintenance, and utility facilities.

In particular, there is a high demand for new manpower in Ulsan, Yeosu, the Daesan Petrochemical Complex, and various large companies in the chemical and plant sectors. These are distributed in nearby areas such as Gimcheon, Gumi, and Pohang, therefore students can secure excellent employment.

 - Training of process technology experts for petrochemical, oil refining, plant facility operation and maintenance tasks.
 - Training of practical skills such as chemical processes, facility diagnosis, machine maintenance, etc.
 - Employment as a technician at a leading company in the oil, pharmaceutical and chemical sectors, and plant sectors.
 - State-of-the-art technology education through the use of differentiated educational infrastructure in the field of energy facilities.
 - Acquire practical skills in the fields of air-conditioning systems, refrigeration practice, basic-air conditioning practice, gas and arc welding, etc.
 - Employment in the field of energy-related facility preservation such as air-conditioned refrigeration equipment and gas equipment.
 - Obtaining national technical certificates in industrial engineering for air-conditioned refrigeration machinery, gas, dangerous goods, industrial safety, and machinery maintenance.

Department Introduction

- Developing personalized skills and expertise required in professions such as accounting, finance, and services. All of which are key areas of business. Practical training with professors from each field focusing on employment complimented by the best corporate infrastructure.

Career and Major Employment Locations

- General manager of financial institutions such as Samsung Fire & Marine Insurance, Hyundai Marine & Fire Insurance, Samsung Securities, etc.
- Office workers at large companies such as SK Hynix, Hanwha, LS Cable & System, STX, etc.
- Samsung Electronics Digital Plaza, LG Best Shop, and other major sales professions.
- Office jobs in accounting firms and tax corporations such as Samil Infomain.

Transfer without Examination

- **Purdue University, USA**
 Department of Accounting, Department of Finance, Department of Marketing and Human Resource Management.

Major Achievements

- Winner of the National NCS Accounting Information Practice Competition for 3 consecutive years.
- LG Hi-Praza and Samsung Electronics signed a job agreement.
- The only financial planner at a local university that produced successful students for five consecutive years.

● ● ●

Employment Opportunities

- Positions at Korean conglomerates such as Samsung, SK Hynix, Hanwha, LS Cable & Systems, STX, LG, or large accounting and tax firms.

Hotel, Airline Services & Tourism

Department Introduction

- Fostering global tourism leaders who will rise to great heights based on essential language skills, international manners, and expertise. We operate the Hotel Restaurant Entrepreneurship major, Aviation Service Major, and Korean Interpretation Major.

Career and Major Employment Locations

- **Airline Steward / Airport Ground Worker**
 - Korean Air, Asiana Airlines, Air Busan, Jeju Air, Jin Air, T'way Air, Air Premia, Qatar, Emirates, AirAsia, Air Macau, China Eastern/Southern/Hainan Airlines, etc.
 - Incheon Airport, Gimhae Airport, Daegu Airport, Jeju Airport, etc.
- **Domestic & International Luxury Hotels**
 - Hotel Shilla (Jeju), Hotel Lotte, Hotel Hyundai, Hyatt Hotel, Shinsegae Chosun Hotel, Australia Meriton Hotel, Sydney Grace Hotel, Sydney Darling Harbour Hotel, etc.
- **Japan Hotel / Airport / Duty Free Shop**
 - Toyoko Inn Hotel, Tokyu Hotel Group, Candeo Hotel, Okinawa Hilton Hotel/Marriott Hotel, Japan Airport Ground Jobs (Narita, Osaka, Chitose, etc.), Japan Tourism Organization (JTC), Youngsan Duty Free Co., Ltd., etc.
- **Large Travel Agencies / Resorts**
 - Hana Tour, Modu Tour, Yellow Balloon, etc. Travel Agency, Daemyung Resort, Samsung Everland, etc.
- **Clerical / Secretarial Jobs in Large Companies**
 - K Hynix, LS Cable & System, Hyundai Maritime, Samsung Securities, Samsung Fire, LG, LG Innotek, etc.

Transfer without Examination

- **Japan**
 - Obirin University, Baikor University, Kwandong Gakuin University, Kyushu International University, Beppu University, Aso Tourism University.
- **China**
 - Beijing University of Foreign Studies, Shanghai Normal University, Tianjin University of Foreign Studies, Tianjin University, Hebei University.
- **Domestic**
 - Daegu Catholic University (Department of Food Service and Culinary Arts, Department of Hotel Management, Department of Japanese Language and Literature).

Customized Education Agreement Companies

- **Luxury Hotels**
 - Hotel Shilla Co., Ltd. (Jeju), Busan Paradise Hotel, Gyeongju Hilton Hotel, Marriott Hotel (Daegu), etc.
- **Overseas Hotels**
 - Australia Meriton Hotel, Sydney Grace Hotel, Sydney Darling Harbor Hotel, etc.
- **Airline / Airport**
 - Air Busan, Air Seoul, Asiana Airlines Co., Ltd., AQ, Air Korea, etc.
- **Hotel in Japan / Airport Duty Free Shop**
 - Tokyu Hotel Group Japan, Japan Kansai Airport Corporation (WAPS, KAS), Narita Airport, Chitose Airport, Okinawa Airport (CS International), Japan Tourism Organization (JTC), Youngsan Duty Free Shop Co., Ltd., Alexander & Sun Japan Co., Ltd.

Major Achievements & the Vision of the Department

- ① Operation of overseas field trips (overseas semester system to Australia, Malaysia, and Japan).
- ② 4 month Global Practice Training Program (Australia, Canada, UK, Czech Republic, Japan, etc.) (22 participants in total in 2021).
- ③ Strong overseas employment: 39 graduates in February 2020 (21 in Japan, 16 in Australia, 2 in China).
- ④ Operation of K-MOVE School's national treasury-supported employment course in Japan (100% achieved employment in Japan).
- ⑤ State Treasury Support LINC+ Department of Socially Customized Special Hotel Class (employment contract at a large luxury hotel).
- ⑥ Signed industry-university cooperation with Air Busan for the first time in the region. Asiana Airlines participated in the Air Busan flight attendant experience class.

International Student Events

Global Zone

Exchange your culture with Korean students and earn tuition! Teach students who are preparing for employment abroad about overseas culture in English and earn living expenses!

International Student Field Trips to Korean Scenic Spots and Companies

Enjoy field trips to scenic spots and major companies in Korea at least once a year.

Buddy Program with Korean Students

Experience cultural exchange with Korean students at least once every semester.

Korean Cultural Experiences

At least once every semester, experience various Korean cultural activities such as wearing Hanbok, a tea ceremony, and Korean cooking.

Korean Speech Contest

A presentation using the Korean you have studied so far! Win an iPad or an Apple Watch as a bonus!

Korean Video Contest

Introduce our school in the Korean video contest! Winners will receive a certificate signed by the university's president and various prizes.

Global Day

Bring the world to Yeungjin! Do you want to get a job abroad? We provide job preparation and employment information to students who wish to work abroad.

International Student Support System

Are you anxious about studying abroad in Korea alone? Don't worry, Yeungjin has a dedicated team for international student support.

[International Student Support Team](#) 🔍

 **Where?**
International Affairs , Office of International Cooperation, Yeungjin University.

 **Who?**
3 Korean staff members dedicated to international students (including 2 English-speaking staff).

 **Why We're Here?**

- Careful and considered assistance from your day of arrival to your graduation.
- Assistance with housing before you arrive.
- Knowledgeable help with your day to day life in Korea (opening bank accounts, immigration paperwork, visas, etc.).
- Help is personalized, based on your needs, and offered one on one.

The International Support Team is here for all your needs.

Admissions Process and Required Documents

Degree Programs

Receipt of Documents	<p>*Interview Conducted upon receipt of documents *Documents submitted via mail or email Required Documents.</p> <ol style="list-style-type: none"> 1. Application form (choice of English/Korean/Japanese). 2. Copy of graduation certificate or expected graduation certificate. 3. Copy of high school transcript. 4. Copies of passports for both yourself and your parents (If you do not have a passport, your national ID card will suffice). 5. Copy of family register (must indicate your parents' nationality). 6. Copy of TOPIK certificate (where applicable).
Interviews and Announcement of Successful Candidates	<ul style="list-style-type: none"> • Online ZOOM interview. • Study plan and assessment. • Results announced within one week of interviews.
Submission of Original Documents	<p>*Refer to Application Guide 1-1 for submission periods for original documents.</p> <ol style="list-style-type: none"> 1. Original high school certificate (Apostille or consular confirmation required within 4 months of university receipt). 2. Original high school transcript (Apostille or consular confirmation required within 4 months of university receipt). 3. Original certified bank statement (Issued within one month of university receipt) (18,000 USD). 4. Duc Nam Hoang

A Business graduate from Vietnam.

The professors and teachers of Yeungjin University not only helped and encouraged me a lot, they also provided numerous scholarships to international students. As a result, I was able to live in Korea without any problems. My dream is to go back to Vietnam as a Professor and teach Vietnamese university students what I learnt in Korea.

Dagilan Simgenur

A Korean Language Course student from Türkiye.

Daegu has a lower cost of living than other cities in Korea. Also, the Korean language training course at Yeungjin University is cheaper than other universities. Teachers at the Korean Language Education Center always kindly provide help and solutions to visa extension and problems that international students may face in Korea. Korean teachers also teach Korean in a fun way, so my skills improved quickly. I want to study Korean diligently and then enter a major course.

Risa Miyagi

A Tourism student from Japan.

To express Yeungjin University in a word, I would say it's "attractive". The practical classes are faithful enough for it to be called a "practical school". I majored in Hotel, Airline Services & Tourism. I felt that it was very helpful to acquire practical knowledge in the tourism industry through practical classes such as Sommelier Practice, Barista Practice, and TOPAS Practice. I want to get a job at a Korean hotel after graduation and provide the best service to customers who visit. I would also like to serve as a bridge between Korea and the world.
